April 24, 2006

Rains Improve Crop Prospects

Welcome rains over the weekend helped ease producer fears and will help spur small grain and hay growth that was stunted by the dry conditions. There were **5.0 days suitable** for fieldwork. Small grain condition remains generally fair to good. **Barley** is 35 percent headed compared to 26 percent last year. **Wheat** is 15 percent headed compared to 3 percent last year and average. **Corn** planting advanced to 21 percent complete, compared to 8 percent last week and 10 percent last year.

Vegetable planting is well underway. **Green pea** and **potato** planting was nearing completion while 18 percent of the **sweet corn** was planted and 11 percent of **snap beans** were planted.

Topsoil moisture improved to 41 percent short, 55 percent adequate, and 4 percent surplus. **Subsoil moisture** was mostly short to adequate with 17 percent very short. **Pasture condition** was reported as 12 percent very poor, 10 percent poor, 43 percent fair, 32 percent good and 3 percent excellent. **Hay supplies** were comparable to last week with supplies mostly adequate to short.
